Symbol description used

Install parts in the opposite direction

Install the same parts on both sides

Pay attention to the direction of installation material B stick to

Fold in half according to dotted line

fold double edge to center dotted line

Fold four sides to the middle

Pay attention to the direction of installation material A stick to material B

combination part according to 1 2 3 so on.

About the use of glue

Method for using glue:

1. After applying the glue, let it dry for a few seconds before pasting.
2. Fix it slightly with your hands, and finally put it aside to dry;

Tips:

When pasting the plane printing paper, a piece of waste bank card or telephone card can be used to wipe evenly after the glue is smeared on the wood board, and then the printing paper is pasted to squeeze out the air inside.

Types of glue:

White latex: Used for adhering soft materials, such as wood and paper.

Alcoholic Glue: Used for adhering hard materials such as cloth, plastic, beads, wire, dust cover, etc.

• Can be peeled off along this line for easy use
